Explanation of the Licensed Psychologist Legislative Assessment Fee: The mandatory Base and Supplemental Legislative Assessments are collected exclusively for IPA Legislative and Advocacy activities. The IPA continually defends the rights of psychologists to continue to provide the services for which they are trained. The IPA also monitors activities and advocates for legislation that has an impact on the consumers we serve, consumers who are not organized to protect themselves. Legislative assessments are charged to all Illinois licensed psychologists with the rationale that even those psychologists who see only a few patients a week do so because the IPA works to protect that right.
